

S3 Organization Canvas

rev. 2017-05-15

The S3 Organization Canvas is a tool for exploring new business models or product ideas, or for communicating existing ones. Sections are numbered to indicate the suggested order of moving through the canvas. For new business models or products, it's a good idea to create several canvases, which each explore different tangents, and then integrate the best ideas into a smaller set of canvases. Those can then be tested through prototyping or other means of interacting with (potential) customers.

<div>1</div> <div>Key Drivers</div> <div>What are the top three drivers your organization responds to? Describe each driver in terms of actor, needs and context. Actors can be individuals or groups, inside or outside the organization, or the organization itself.</div>	<div>2</div> <div>Key Deliverables</div> <div>What does your organization provide to meet the key drivers? Describe the top three deliverables (products, services, experiences or transformations).</div>	<div>3</div> <div>Customer Segment</div> <div>Who will be your ideal customers? These should relate to the actors mentioned in your key drivers.</div>	<div>4</div> <div>Unique Value Proposition</div> <div>What is the one thing that makes your organization unique?
